PROFESSIONAL EXPERIENCE

I have been working as a backend developer for the past three years. I started my career as a freelancer, working on a variety of projects for clients in different industries. In May 2022, I joined All Web Services as a backend developer, where I have been working on a number of projects (such as Kloo & Sevexchange) for clients in the Benin area.

In each of these projects, I was responsible for implementing the backend logic to integrate with the frontend, as well as handling database communications and business logic. I have also gained experience working with a team and communicating with clients to ensure that the final product meets their needs.

I am always looking for new challenges and opportunities to grow as a backend developer. If you have a project that you think might be a good fit for my skills and experience, don't hesitate to reach out!

CERTIFICATIONS

- Server-side Development with NodeJS, Express and MongoDB
- Version control with GIT
- Docker for Absolute Beginners
- Agile with Atlassian Jira

Mohamed Fadel

RECENTS PROJECTS

- MySQL Database Design for Online Shop :
- NPM Package for Scraping Movie and Store Data
- Rest API for Managing Projects in a Portfolio
- Discord Bot for Synonyms and Antonyms
- Server-Side Rendering Web Application for Business Plan and Customer Management
- Real-Time Chat Application

EXPERIENCES

- Experience with Computer Science fundamentals including data structures, algorithms, complexity analysis.
- Experience working in an Agile/Scrum environment to deliver high-quality solutions against aggressive roadmaps.
- Experience building high load, scalable and robust systems.
- Ability to go above your functional responsibilities and help to solve problems across departments and business verticals.
- Experience in rapid prototyping and other fast iteration methods for product development.
- Experience in building complex Software engineering solutions.
- Strong focus on delivering results, ability to think out of the box and beyond your area of responsibility.
